WATSAN Programme in Republika Srpska: Programme Management Support

The project comprises a range of water and sanitation schemes for 27 municipalities widely spread throughout Republika Srpska (RS) entity in Bosnia and Herzegovina. The objective of the project is the protection of public health and environment from water pollution, while maintaining a balanced development of water supply and sanitation as well as safeguarding the financial and operational viability of the water companies.

This grant has covered programme management support, with services which ranged from the preparation of overviews for financing and feasibility studies to the development of tender dossiers for investments. The municipalities who benefited from such services include: Laktasi, Novi Grad, Prijedor, Kozarska Dubica, Doboje, Sokolac, Rogatica, Pale, Trebinje, Zvornik, Sekovici, Samac, Teslic, Gacko, Brod, Gradiska, Ribnik, Sipovo, Celinac, Kotor Varos, Bratunac, Petrovo, Vukosavlje, Petrovac, Krupa na Uni, Foca, Visegrad, Bileca, Nevesinje, Srbac, Berkovici, and Bijeljina.

The WBIF has allocated a subsequent grant to continue providing support to the implementation of the investments.

Results:

- Programme management and institutional capacity building
- Scoping reports
- Project appraisal reports and project fiches for priority subprojects
- Feasibility studies for water supply and wastewater collection and treatment
- Tender dossiers for two municipalities.
- 450,000 citizens to benefit from modern water and wastewater services.

Construction of wastewater collectors, Bosnia and Herzegovina.
